

QuietRock®

Soundproofing Drywall

- The lowest cost soundproofing solution
- Hangs and finishes like standard drywall
- Reduces noise 70% or more
- Proven in 35,000 projects
- UL/ULC Classified for Fire Resistance - Type X*

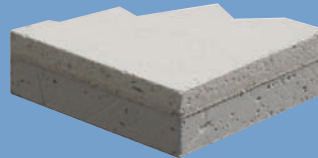

The top selling soundproofing drywall in North America continues to save builders money and exceed expectations in ease of use, reliability and proven results in over 35,000 projects. QuietRock replaces older techniques such as resilient channels, clips, sound board and mass loaded vinyl and offers lower cost solutions than other methods with higher STC performance.
