

# Full Line of Trim

Restoration Millwork exterior trim makes it easy to create custom design details. Made from cellular PVC, Restoration Millwork looks, feels, and works like real wood, so it can be hand crafted to create an unlimited range of unique design elements.

- ◆ Superior quality and excellent dimensional accuracy.
- ◆ Low-maintenance, long-lasting material.
- ◆ Natural White and ready to install.
- ◆ Highly resistant to UV yellowing.
- ◆ Can be painted to complement with exterior colors.
- ◆ Cuts and mills with traditional woodworking tools.
- ◆ Class A (Class 1) Flame Spread Classification.
- ◆ Meets ICC and CCMC code requirements.
- ◆ 25-year limited warranty.

Original Glossy Finish Profiles

First Quarter Change  
NEW Satin Finish Profiles for even better paintability

Enjoy endless creative possibilities with Restoration Millwork. Combine trim and profiles to create custom combinations for any project.

### FinishedEdge™

Edges are heat sealed to prevent dirt from collecting on surface.

### Smooth Finish

Restoration Millwork's smooth finish creates the appearance of clean, freshly painted wood, and is smooth on both sides.

### TrueTexture™ Finish

CertainTeed's TrueTexture woodgrain finish is molded from real cedar boards, creating a beautifully realistic appearance with a smooth finish on reverse side.

### J-Pocket with Cut-out

A new window trim with a cut-out that allows trimboards to lie flush around windows and doors, and takes the work out of making perfect miter cuts at the corners.

# NEW Products for easy installation

All **new** products have been designed with the emphasis on ease-of-use, and the same accuracy, performance, and curb appeal you've come to expect from CertainTeed.

**Beadboard with TightLap™** enhanced performance and a new size speeds up installation.

**Column Wraps** simplify and beautify with countless, easy-to-use options for custom configurations.

**Fiber Cement Skirtboard** with designed-in features provides fast and accurate installation as both a skirtboard or a transition panel for fiber cement siding.

## Column Wrap Slides On, Swings Closed for Fast, Easy Installs

Designed as a three-sided wrap, with a swinging door on the fourth side, Column Wraps are pre-cut, pre-mitered, and pre-assembled to slide around existing wood load-bearing 4" x 4" or 6" x 6" porch posts to create a more substantial looking column.

1. Attach Blocking.
2. Slide Around Column.
3. Swing Closed.

Simple and versatile, with two column sizes: 8" x 8" and 10" x 10" and two cap/base trim set designs.

Beadboard with TightLap

2TL Beadboard

## Beadboard with TightLap

Whether you choose 2TL or 3TL, Beadboard with TightLap delivers better hold with a larger concealed nailing area, and sturdy tongue and groove connections.

3TL Beadboard—  
a full 1/3 wider for  
faster coverage.

## Fiber Cement Skirtboard with patent-pending DualStart™ Design

Made from cellular PVC, the ideal solution for meeting building codes requiring 6" ground clearance when installing fiber cement siding.

Also suited for use as a transition board between siding styles, Fiber Cement Skirtboard offers added advantages in installation accuracy, performance and style.
