

Easy selection. Long-term protection.
And a #1 rating with building and remodeling professionals.

What's behind our #1 rating?

Builders and remodelers across America know certain things to be true of CertainTeed. For starters, we've been in the roofing business for over 100 years, and we have thousands of satisfied homeowners. The process of building that satisfaction begins the moment you turn to us.

CertainTeed offers you the broadest range of color and style choices. But you'll see it's not style over substance. You'll get a roof that's made from the highest quality materials and backed by a strong warranty program. It's our promise to you: quality made certain, satisfaction guaranteed.

Check out CertainTeed's ColorView.

ColorView is our interactive tool to help you visualize product style and color options. Using it is easy (and even a little fun). Just go to certainteed.com/colorview.

Your home is one of a kind. Presidential Shake™ will make sure it stands out.

There are certain homes that just call for a shake roof. Is yours one of them? In the past, wood shake roofs typically belonged to only a few styles and regions, but today the possibilities are wide open with Presidential Shake luxury shingles from CertainTeed. No matter your address, you can give that distinct, staggered-edge shake look to your roof. Not to mention amazing durability.

Here's what distinguishes Presidential Shake:

Wood shake styling The shades, the textures, the sculpted rustic edges and staggered design all combine to do one thing: give your roof all the charm and beauty of authentic wood shakes at a fraction of the cost.

True originality You're choosing an original, not an imitator. Presidential Shake was the first of its kind, and no other shingle replicates the look of real wood shakes quite so stunningly.

StreakFighter™ Warranty It's an important feature. One that tells you a special manufacturing process was used to protect your shingles from the streaking and discoloration caused by airborne algae.

Superior two-piece construction Composed of two laminated layers of the industry's most durable materials, Presidential Shake exceeds the toughest performance standards. These shingles are built to last.

In the end, we're proud to offer you Presidential Shake as part of a full range of choices in luxury-level shingles—and not just because it represents many of the design innovations we introduced to the industry. But because we know it's going to give your home a look that's hard to match.

A new shake roof.

When was the last time the neighbors were awe-struck?

Color Companion Products™

Are you color coordinated? CertainTeed offers Flintastic® SA, a self-adhering, low-slope roofing product that color coordinates with our most popular shingles. It is available in eight colors, giving you the flexibility to coordinate areas such as porches, canopies and carports with your main roof.

Roofs are big. Color is important. Choose wisely.

1. **Think big**—View a full-sized shingle, not just a swatch or sample.
2. **Be real**—Look at actual houses where the house/roof color combinations are similar to what you're considering.
3. **Watch the light**—As you look, notice how colors appear under changing light conditions and at various times of day.
4. **Consider the pitch**—Look for roofs with a similar pitch to your own. A roof's pitch affects the way you see its color.
5. **Ask your contractor**—They might be able to point you to a home where they've installed a roof of your style and color.
