

Founded by contractors for contractors. From classroom training to real world implementation.

REMODELERS ALERT!

Would you rather pay \$1.00 (or less) now or up to \$37,500 (or more) later?

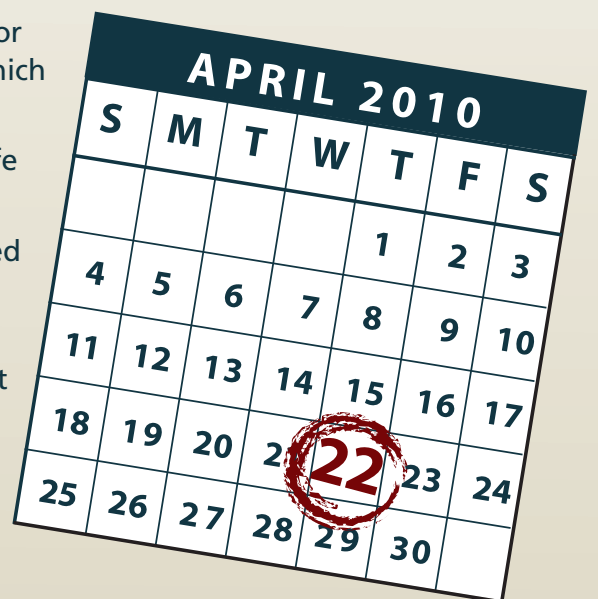

- You must provide an Official EPA Approved copy of the Renovate Right Pamphlet to the owners of any pre-1978 home.
- You must get a signed acknowledgment form from the homeowner and keep it on file.
- Violations of the above can mean EPA fines of up to \$37,500 per day/per violation. Don't risk your business!
- Only KACHINA has the approved booklets with an attached copyright-protected acknowledgment form. Kachina pamphlets also position you as a responsible contractor with a "marketing plus" for future contacts.

April 22nd has passed...now what?

The Toxic Substances Control Act set this date as the official start for the following if you intend to do work in any pre-1978 housing which tests positive for lead:

- Your company must be EPA Certified agreeing to follow Lead Safe Work Practices.
- Your company must use Certified Renovators who have completed an EPA Approved 8 hour course.
- Your workers/installers must have received relevant on-the-job training in Lead Safe Work Practices (minimum 2 hours) and must be supervised or directed by a Certified Renovator.
- Your company must adhere to all recordkeeping requirements.
- You must continue to provide homeowners with the Renovate Right Pamphlet.
