

Interplay is a virtual training platform CertainTeed is utilizing for contractor training. Interplay has multiple paths for individuals to improve their knowledge base in the solar and solar installation.

Once the letter with the **username and password** has been received, it's time to get on the platform and start training.

To access Interplay, click or copy the following address:
certainteed.interplaylearning.com/login

Then login with Temporary Password and click Log In.

Then **customize** if desired.

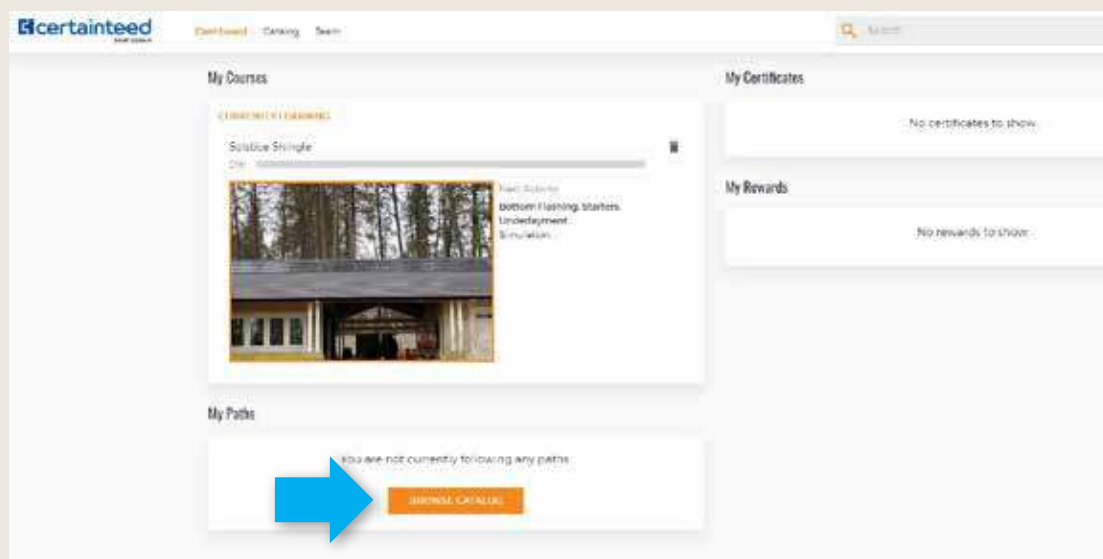

Upon entering the platform, a **Dashboard**, Catalog and Team selections are located at the top left of the page. Under My Course, a **Solstice Shingle simulation is shown** – this course is only required for the Master Craftsman Select BiPV path.

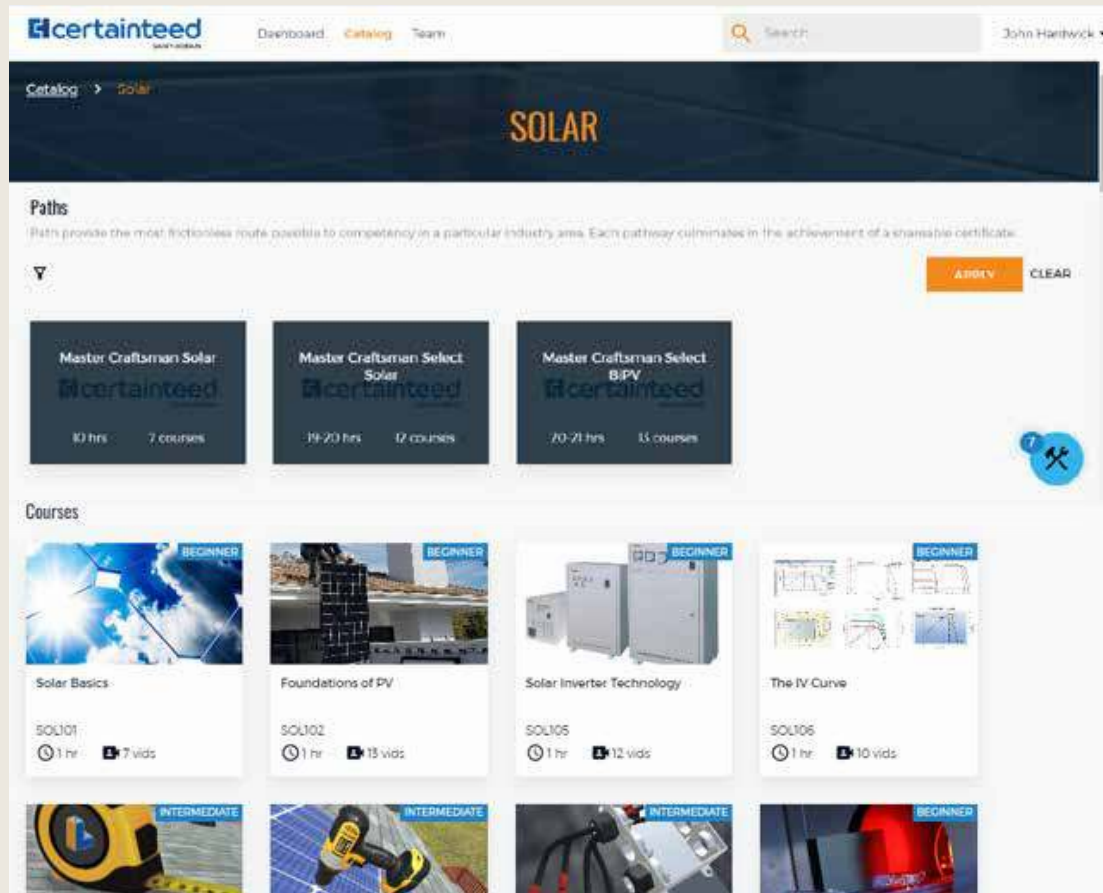

To the right of My Courses is **My Certificates and My Rewards**, which show your training progress.

Underneath My Courses is My Paths, click **Browse Catalog**,

which takes you to the [Catalog Page](#).

Select the preferred path:

Master Craftsman Solar

Basic solar training focused on traditional solar understanding.

7 courses / 10 hours

Master Craftsman Solar Select

Advanced solar training (recommended for Project Managers, supervisors and job leads.)

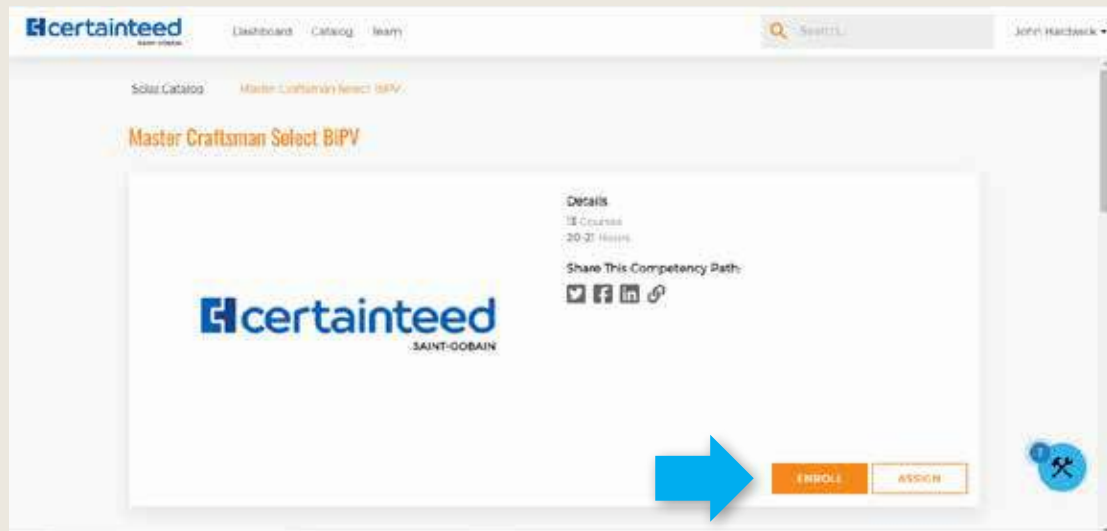

12 courses / 19 hours

Master Craftsman Select BiPV

Advance solar training with Solstice Shingles simulation (recommended for Project Managers, supervisors and job leads, who are installing Solstice Shingles.)

13 courses / 21 hours

After selecting, [click Enroll](#):

Then proceed to complete the training. If there are any questions, on how to get started or other inquiries, click the blue questions mark icon in the lower right corner.
