

Volu-Matic® 200

BLOWING MACHINE

Excellent Performance at an Affordable Price

The industry's top of the line series has a machine affordable for everyone! The Volu-Matic 200 delivers the outstanding performance and flexibility you expect from Volu-Matic machines in a compact, affordable package. Designed for use with fiber glass, cellulose and stone wool insulation, the Volu-Matic 200 machine offers the professional contractor multiple rigging options and an excellent return on investment. It's also available in an electric version for in-plant applications such as fiber testing labs or manufactured housing.

Features & Benefits

- PTO (power take-off) or gas engine
- Positive displacement blower
- Air volume control with panel mounted gauge
- Material control slide
- 4-speed transmission
- Two long-life electric clutches
- Automatic backflow check valve
- Electrical and mechanical overload protection
- Self-aligning sealed bearings
- Adjustable drive belts
- Wired remote control
- Integrated safety features

MACHINE SPECIFICATIONS

Insulation	Fiberglass, Stone Wool, Cellulose
Two Models Available	19-Horsepower Gas Engine PTO (Power Take-Off) On Truck
Load Height	59"
Height	69"
Width	72"
Depth	48"
Weight: Approx	1,300 lbs.

Volu-Matic® 200

Featured Details

Fully Sealed Blow-Through Air-Lock Feeder – Seals pressurized airflow to provide installer with a consistent flow of conditioned fiber.

Air Volume Control System – Adjustable air pressure and air flow control with panel mounted display gauge.

Four-Speed Transmission – Operator-selected speed control for various materials and applications. Allows additional control of air-to-material ratio.

Material Control Slide – Secondary volume and conditioning control. Allows operator adjustment of fiber flow to the shredder.

Mechanical Overload Protection – protects the internal hopper components and air-lock feeder from foreign objects.

Remote Control – Gives installer the option of selecting air only or air and fiber from the point of application.

Powder-Coat Finish – Durable, long-life protection for your investment.

Integrated Safety Features – Emergency stop switches; electrical interlock; front, rear and side guards.

Self-Aligning Sealed Bearings – High-quality bearings are used throughout the certainteed machine works product line. They are sealed to keep out dust and equipped with zerk fittings for proper maintenance.

Adjustable Drive Belts – Flexibility to adjust belt tension as belts wear to maximize belt life.
