Section 1: Identification

Product identifier

Product Name: Mechanical/Industrial/OEM - CT10101-6

Synonyms:
- Canadian Metal Building Insulation; CertaPro® Acoustaboard Black; CertaPro™ Acoustaboard™ Black; CertaPro™ Board; Commercial Blanket Insulation; Crimp Wrap™; Crimp Wrap Crimped Pipe and Tank Wrap; HT Blanket; Insulation for Flex Duct; Marine Ductwrap; Metal Building Insulation 202 -96; OEM Acoustical Board Insulation; Quickwrap Ductwrap; Soft Touch™ Duct Wrap; ToughGard® BMC Liner Board; ToughGard® Duct Board; ToughGard® R Duct Liner (1/2’); ToughGard® Rigid Liner Board; ToughGard® T Duct Liner; ToughGard® T Textile Duct Liner; ToughGard® Ultra*Round Spiral Duct Liner; ToughGard® Ultra*Round® Spiral Duct Liner Insulation; Ultra* Duct™ Black Duct Board; Universal Blanket
- Product Literature Code: 30-36-045.

Relevant identified uses of the substance or mixture and uses advised against

Recommended use:
- Acoustical & Thermal Insulation

Details of the supplier of the safety data sheet

Manufacturer: CertainTeed Corporation
20 Moores Road
Malvern, PA 19355
United States
www.certainteed.com
CertainTeed-EHS@saint-gobain.com

Telephone (General): 610-893-6000

Emergency telephone number

Manufacturer: 800-424-9300 - CHEMTREC

Section 2: Hazard Identification

UN GHS Revision 3
According to: UN Globally Harmonized System of Classification and Labelling of Chemicals (GHS): Third Revised Edition

Classification of the substance or mixture

UN GHS: Not classified

Label elements

UN GHS

Hazard statements: No label element(s) required

Precautionary statements

Other hazards

UN GHS: According to the Globally Harmonized Standard for Classification and Labeling (GHS) this product is considered not hazardous
### United States (US)
**According to: OSHA 29 CFR 1910.1200 HCS**

**Classification of the substance or mixture**
- OSHA HCS 2012: Not classified

**Label elements**
- OSHA HCS 2012
  - **Hazard statements**: No label element(s) required

**Other hazards**

### Canada
**According to: WHMIS**

**Classification of the substance or mixture**
- WHMIS: Not classified

**Label elements**
- WHMIS: No label element(s) required.

**Other hazards**
- WHMIS: In Canada, the product mentioned above is not considered hazardous under the Workplace Hazardous Materials Information System (WHMIS).

### Section 3 - Composition/Information on Ingredients

#### Substances
- Material does not meet the criteria of a substance.

#### Mixtures

See Section 16 for full text of H-statements.

**Section 4: First-Aid Measures**

**Description of first aid measures**

**Inhalation**
- Remove to fresh air immediately and notify medical personnel and supervisor. Give artificial respiration if victim is not breathing. If breathing is difficult, give oxygen.

**Skin**
- After contact with skin, take off immediately all contaminated clothing and wash immediately with plenty of soap and water. If irritation develops and persists, get medical attention.

**Eye**
- Do not rub or scratch your eyes. Immediately flush eyes with plenty of water for at least 15 minutes and notify medical personnel and supervisor. If eye irritation persists: Get medical advice/attention.

**Ingestion**
- Consult a physician if unusual reaction is noted. Product is not intended nor is it likely to be ingested or eaten.

**Most important symptoms and effects, both acute and delayed**
• Refer to Section 11 - Toxicological Information.

**Indication of any immediate medical attention and special treatment needed**

**Notes to Physician**
- All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

**Section 5: Fire-Fighting Measures**

**Extinguishing media**

**Suitable Extinguishing Media**
- Use any media suitable for the surrounding fires.

**Unsuitable Extinguishing Media**
- None known.

**Special hazards arising from the substance or mixture**

**Unusual Fire and Explosion Hazards**
- Does not support combustion. These products contain a cured binder and various facings which contain retardant systems to reduce the possibility of fire. Use of plasma or other type of cutting tool may cause the release of toxic fumes and smoke. Facings on these products may burn. Do not leave facing exposed when working close to an open flame. If burned, the materials could release toxic fumes.

**Hazardous Combustion Products**
- Does not support combustion. If burned, the materials could release toxic fumes and smoke. Combustion products may include oxides of carbon, sulfur and other potentially volatile organic compounds, oxides of arsenic, oxides of nitrogen, hydrogen chloride, antimony, bromide gas, hydrogen bromide, formaldehyde, and trace hydrogen cyanide.

**Advice for firefighters**
- Fire fighters should avoid inhaling any combustion products. Fire fighters should wear full-face, self contained breathing apparatus and impervious protective clothing.

**Section 6 - Accidental Release Measures**

**Personal precautions, protective equipment and emergency procedures**

**Personal Precautions**
- Avoid contact with skin and eyes during clean-up. Take proper precautions to minimize exposure by using appropriate personal protective equipment.

**Emergency Procedures**
- Persons not wearing appropriate protective equipment should be excluded from area of spill until clean-up has been completed. Ventilate the contaminated area.

**Environmental precautions**
- Avoid run off to waterways and sewers.

**Methods and material for containment and cleaning up**

**Containment/Clean-up Measures**
- Containment of this material should not be necessary. Remove sources of ignition. Collect dust or particulates using a vacuum cleaner with a HEPA filter. Avoid the generation of dusts during clean-up.

**Reference to other sections**
- Refer to Section 8 - Exposure Controls/Personal Protection and Section 13 - Disposal Considerations.

**Section 7 - Handling and Storage**

**Precautions for safe handling**

**Handling**
- Do not breathe dust from this material. Keep this product from heat, sparks, or open flame. Use this product with adequate ventilation. Always wash work clothes separately from other clothing. Wipe out the washer or sink to prevent loose glass.
fibers from getting on other clothing. Wash thoroughly after handling. Use personal protective equipment as described in Section 8.

Conditions for safe storage, including any incompatibilities

Storage
- Store in a dry place and under cover to protect product.
- Hydrofluoric acid.

Incompatible Materials or Ignition Sources
- Refer to Section 1.2 - Relevant identified uses.

Specific end use(s)
- Refer to Section 1.2 - Relevant identified uses.

Section 8 - Exposure Controls/Personal Protection

### Exposure Control Notations

**ACGIH**
- Fibre glass as Glass wool fiber: Carcinogens: (A3 - Confirmed Animal Carcinogen with Unknown Relevance to Humans (listed under Synthetic vitreous fibers))
- Antimony oxide (1309-64-4): Carcinogens: (A2 - Suspected Human Carcinogen (production))
Carbon Black (1333-86-4): Carcinogens: (A3 - Confirmed Animal Carcinogen with Unknown Relevance to Humans)

Exposure Limits Supplemental
ACGIH
Antimony oxide (1309-64-4): TLV Basis - Critical Effects: (lung cancer (antimony trioxide production); pneumoconiosis (antimony trioxide production)) | No Adopted Value: (Exposure by all routes should be carefully controlled to levels as low as possible (production))
Antimony oxide as Antimony compounds: TLV Basis - Critical Effects: (skin and upper respiratory tract irritation)
Carbon Black (1333-86-4): TLV Basis - Critical Effects: (bronchitis)

Exposure controls
Engineering Measures/Controls
Use general ventilation and use local exhaust, where possible, in confined or enclosed spaces. Avoid spread of fiber glass dust.

Personal Protective Equipment
Respiratory
A properly fitted NIOSH (American National Institute For Occupational Safety And Health) approved disposable N 95 series dust respirator such as type 3M 8210 (formerly 8710) or 3M 8271 (formerly 9900) respirators should be used under any dust environment or during a process that generates dusts. Use respiratory protection in accordance with the respiratory protection program of your company, local regulations and OSHA regulations under 29 CFR 1910.134.

Eye/Face
Safety glasses with side shields should be worn at a minimum. In dusty environments chemical goggles should be worn.

Skin/Body
Work clothing sufficient to prevent all skin contact should be worn, such as coveralls, long sleeves and cap.

General Industrial Hygiene Considerations
Use good industrial hygiene practices in handling this material. Availability of eye wash fountains are recommended. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco.

Environmental Exposure Controls
Follow best practice for site management and disposal of waste. Controls should be engineered to prevent release to the environment, including procedures to prevent spills, atmospheric release and release to waterways.

Key to abbreviations
ACGIH = American Conference of Governmental Industrial Hygiene
LLV = Limit Level Value is the exposure limit for 8-hour work day
NIOSH = National Institute of Occupational Safety and Health
OSHA = Occupational Safety and Health Administration
STEL = Short Term Exposure Limits are based on 15-minute exposures
TLV = Threshold Limit Value determined by the American Conference of Governmental Industrial Hygienists (ACGIH)
TWA = Time-Weighted Averages are based on 8h/day, 40h/week exposures

Preparation Date: 04/June/2013
Revision Date: 06/July/2016
Section 10: Stability and Reactivity

Reactivity

- No dangerous reaction known under conditions of normal use.

Chemical stability

- Stable under normal conditions of use.

Possibility of hazardous reactions

- Hazardous polymerization not indicated.

Conditions to avoid

- Keep away from heat, ignition sources and incompatible materials.

Incompatible materials

- Hydrofluoric acid.

Hazardous decomposition products

- Hazardous decomposition products may include oxides of carbon, sulfur and other potentially volatile organic compounds, oxides of arsenic, oxides of nitrogen, hydrogen chloride, antimony, bromide gas, hydrogen bromide, formaldehyde, and trace hydrogen cyanide.

Route(s) of entry/exposure
- Inhalation, Skin, Eye, and Ingestion

Medical Conditions Aggravated by Exposure
- Pre-existing conditions which may be aggravated by mechanical irritants upon inhalation or skin contact.

Potential Health Effects

**Inhalation**
- **Acute (Immediate)**
  - Temporary irritation of nose and throat may occur.
- **Chronic (Delayed)**
  - Use of these products has not been shown to cause cancer in humans. Fiber glass wool is a possible cancer hazard. Fiber glass wool has caused cancer in animals but has not produced cancer by inhalation in humans.

**Skin**
- **Acute (Immediate)**
  - Temporary irritation of the skin may occur in some individuals.
- **Chronic (Delayed)**
  - No data available.

**Eye**
- **Acute (Immediate)**
  - Temporary irritation or redness may occur.
- **Chronic (Delayed)**
  - No data available.

**Ingestion**
- **Acute (Immediate)**
  - Ingestion of this product unlikely.
- **Chronic (Delayed)**
  - No data available

Carcinogenic Effects
- This product contains antimony trioxide which may cause cancer based on sufficient animal data. This product contains glass wool insulation fibers. Following a thorough
review of all the medical-scientific data available at a meeting in October 2001, the IARC panel lowered the classification for glass wool insulation fibers from a Group 2B classification ("possibly carcinogenic to humans") to a Group 3 classification ("not classifiable as to carcinogenicity to humans"). According to IARC, there is "no evidence of increased risks of lung cancer or of mesothelioma from occupational exposures during manufacturing of these materials, and inadequate evidence overall of any cancer risk." U.S., California and international authorities have all agreed that biosoluble and inhalable glass fibers should not be labeled as a possible cancer hazard. The U.S. National Toxicology Program ("NTP") and the California Office of Environmental Health Hazard Assessment ("OEHHA") actions mean that a cancer warning label for biosoluble fiber glass is no longer required under Federal or California Law.

LD = Lethal Dose
TC = Toxic Concentration
TD = Toxic Dose

Section 12 - Ecological Information

Toxicity
- Binder-coated fiber glass is hydrophobic, therefore, no adverse environmental effects would be expected if this product were accidentally released in the water or soil. No harm to fish or wildlife would be caused by this product.

Persistence and degradability
- No information available for the product.

Bioaccumulative potential
- No information available for the product.

Mobility in Soil
- No information available for the product.

Other adverse effects
Potential Environmental Effects
- No environmental effects expected.

Section 13 - Disposal Considerations

Waste treatment methods
Product waste
- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

Packaging waste
- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

Section 14 - Transport Information
Special precautions for user
- None specified.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
- Data lacking.

Section 15 - Regulatory Information

Safety, health and environmental regulations/legislation specific for the substance or mixture

SARA Hazard Classifications
- None

- Fibre glass
  - 65997-17-3
  - Not Listed

**U.S. - California - Proposition 65 - No Significant Risk Levels (NSRL)**

- Phenol, polymer with formaldehyde and urea
  - 25104-55-6
  - Not Listed
carcinogen, 2/21/2003
  - (airborne, unbound particles of respirable size)
- Poly(oxy-1,2-ethanediylloxycarbonyl-1,4-phenylenecarbonyl)
  - 25038-59-9
  - Not Listed
carcinogen, 10/1/1990
- Carbon Black
  - 1333-86-4
  - Not Listed
- Antimony oxide
  - 1309-64-4
  - Not Listed
- Fibre glass
  - 65997-17-3
  - Not Listed

**U.S. - California - Proposition 65 - Reproductive Toxicity - Female**

- Phenol, polymer with formaldehyde and urea
  - 25104-55-6
  - Not Listed
carcinogen, 2/21/2003
  - (airborne, unbound particles of respirable size)
- Poly(oxy-1,2-ethanediylloxycarbonyl-1,4-phenylenecarbonyl)
  - 25038-59-9
  - Not Listed
carcinogen, 10/1/1990
