15/16" Wall Angle

The FireSecure™ Stab System features a 15/16" (24 mm) face width that is widely used in interior designs today. The strong integral end tabs provide quick and easy installation with optimal tightness among installed components.

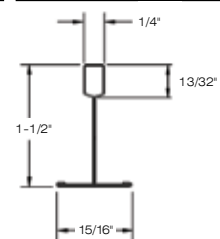

FEATURES & BENEFITS

- The FireSecure™ and Protectone® ceiling assembly offers fire-rated solutions for 2' x 2' and 2' x 4' modules
- Suited for specific UL/ULC time-rated fire-resistant ceiling assemblies
- Tested in accordance with ASTM E119 for fire ratings
- FireSecure™ and Protectone® suspended ceiling designs have been tested and are listed at UL.com and CertainTeed.com/Ceilings
- Suited for seismic categories A-C
- High recycled content - 3rd party certified
