Section 1: Summary

Based on the selected Content Inventory Threshold:

Charactereized: ....................................................  Yes
Are the Percent Weight and Role provided for all substances?  No

Screened: ........................................................  Yes
Are all substances screened using Priority Hazard Lists with results disclosed?  No

Identified: ........................................................  Yes
Are all substances disclosed by Name (Specific or Generic) and Identifier?  No

CONTENT IN DESCENDING ORDER OF QUANTITY

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

MATERIAL | SUBSTANCE | RESIDUAL OR IMPURITY | GREENSCREEN SCORE | HAZARD TYPE
--- | --- | --- | --- | ---
CERTAINTEED CEILINGS FORMULA 6S | SOLID GLASS AND GLASS / MINERAL FIBER (SEE VARIANTS) | LT-UNK | CAN SOLUBLE STARCH | UNK
| CELLULOSE, MICROCRYSTALLINE | UNK | PERLITE | LT-UNK | KAOLIN CLAY | LT-UNK
| CAN CALCIUM CARBONATE | BM-3 | TITANIUM DIOXIDE | LT-1 | CAN VINYL CHLORIDE-ETHYLENE POLYMER | LT-UNK | TALC | BM-3 | CAN QUARTZ | LT-1 | CAN

Number of Greenscreen BM-4/BM3 contents........ 2
Contents highest concern GreenScreen Benchmark or List translator Score......... LT-1
Nanomaterial.............. No

INVENTORY AND SCREENING NOTES:

This HPD covers the following CertainTeed Ceilings Products: Cashmere, Cashmere Customline, Cashmere High NRC, Cashmere Style Edge, Fine Fissured High NRC, Sky

VOLATILE ORGANIC COMPOUND (VOC) CONTENT

VOC Content data is not applicable for this product category.

CERTIFICATIONS AND COMPLIANCE

VOC emissions: CDPH/EHLB/Standard Method V1.1 Standard

See Section 3 for additional listings.
Section 2: Content in Descending Order of Quantity

This section lists materials in a product and the substances in each material based on the Inventory Threshold for each material. If residuals or impurities from the manufacturing or extraction processes are considered for a material, these are inventoried and characterized to the extent described in the Material and/or General Notes. Chemical substances are screened against the HPD Priority Hazard Lists for human and environmental health impacts. Screening is based on best available information; "Not Found" does not necessarily mean there is no potential hazard associated with the product or its contents. More information about Priority Hazard Lists and the GreenScreen can be found online: www.hpd-collaborative.org and www.greenscreenchemicals.org.

**%:** Impurity/Residual  
**GS:** LT-1  
**RC:** None  
**NANO:** NO  
**ROLE:** Impurity/Residual  

**HAZARDS:**  
CANCER  

**AGENCY(IES) WITH WARNINGS:**  
IARC  
Group 1 - Agent is Carcinogenic to humans  
MAK  
Carcinogen Group 1 - Substances that cause cancer in man  
US CDC - Occupational Carcinogens  
Occupational Carcinogen  
CA EPA - Prop 65  
Carcinogen - specific to chemical form or exposure route  
IARC  
Group 1: Agent is carcinogenic to humans - inhaled from occupational sources  
US NIH - Report on Carcinogens  
Known to be Human Carcinogen (respirable size - occupational setting)  
MAK  
Carcinogen Group 1 - Substances that cause cancer in man  

**SUBSTANCE NOTES:**

---

**Section 3: Certifications and Compliance**

This section lists applicable certification and standards compliance information for VOC emissions and VOC content. Other types of health or environmental performance testing or certifications completed for the product may be provided.
Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

**ACOUSTIC CEILING SUSPENSION SYSTEMS**

**CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES:** Ceiling tiles are seated inside of ceiling grid that is hung from an overhead structure.

LAN Land Toxicity
NF Not found on Priority Hazard Lists

GreenScreen (GS)

BM-4 Benchmark 4 (prefer-safer chemical)
BM-3 Benchmark 3 (use but still opportunity for improvement)
BM-2 Benchmark 2 (use but search for safer substitutes)
BM-1 Benchmark 1 (avoid - chemical of high concern)
BM-U Benchmark Unspecified (insufficient data to benchmark)

LT-P1 List Translator Possible Benchmark 1
LT-1 List Translator Likely Benchmark 1
LT-UNK List Translator Benchmark Unknown (insufficient information from List Translator lists to benchmark)
UNK Unknown (no data on List Translator Lists)

Recycled Types

PreC Preconsumer (Post-Industrial)
PostC Postconsumer
Both Both Preconsumer and Postconsumer
Unk Inclusion of recycled content is unknown
None Does not include recycled content

Other

Nano Composed of nanoscale particles or nanotechnology

Declaration Level

Self-declared Manufacturer’s self-declaration (First Party)
Independent Lab Manufacturer’s self-declaration using results from an independent lab
Second Party Verification by trade association or other interested party
Third Party Verification by independent certifier
Applicable facilities Manufacturing sites to which testing applies

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator, and when available, full GreenScreen assessments. The HPD Open Standard does not provide an assessment of health impacts throughout the product life cycle. It does not provide an assessment of exposure or risk associated with product handling or use. It also does not address potential health impacts of: (i) substances used or created during the manufacturing process unless they remain in the final product, or (ii) substances created after the product is delivered for end use (e.g., if the product burns, degrades, or otherwise changes chemical composition).

The HPD Open Standard was created and is maintained and evolved by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry. The HPD Collaborative is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

A disclosure completed in compliance with the HPD Open Standard is referred to as a “Health Product Declaration,” or “HPD.” The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD Open Standard noted.
