

## TECHNICAL MEMO

RE: Maintenance Instructions for <b>Performa™ VOC Compliant Symphony® f</b> acoustic ceiling panels	
From: CertainTeed Ceilings Technical Services	Phone: 800-233-8990
Email: <a href="mailto:ceilingstechnicalservices@certainteed.com">ceilingstechnicalservices@certainteed.com</a>	

### **Handling**

Clean cotton gloves should be worn at all times, both during the initial ceiling assembly and any subsequent activity that may require a panel to be removed. When panels are removed they should be taken completely out of the grid and stored on a flat surface. Panels should be laid face to face in order to prevent unnecessary soiling and damage during their temporary displacement.

### **Cleaning**

Clean panel by using a sponge or cloth dampened with a water and mild liquid detergent solution (*such as Dawn Ultra® dish soap*). Squeeze the saturated sponge or cloth until it is merely damp. Then lightly wipe the surface to be cleaned. Do not moisten panel excessively. Never soak panels with water.
