

CertainTeed

Lite Sand PLUS

Setting Compound

- New Formula—Superior Bond
- Low shrinkage
- Lightweight
- Sandable

CertainTeed Lite Sand PLUS Setting Compounds are lightweight sandable chemically setting powders used to prefill joints, embed joint tape and conceal joints, fasteners and trim accessories on gypsum wallboard. They can also be used for interior patching and repair. They are ideal for heavy fills because they are specially formulated to harden with very little shrinkage in a prescribed time frame. Setting times are available from 5 minutes to 210 minutes. Custom set times greater than 210 minutes are available upon request with minimum order quantities.
