

STATIC VENT

Square Top Plastic Roof Exhaust Vent

Square Top
Plastic Roof
Exhaust Vent

Available in **Black, Brown, Gray,** and **Weatherwood**, these square top static roof vents are an excellent performer against weather infiltration, especially on steep-slope roofs. The vent is designed as a two piece unit with permanent clips allowing the vent to perform as a single unit. This design reduces the possibility of separation and is excellent at preventing leaks and bird or rodent nesting. The plastic construction is long lasting and rust-free.

Features and Benefits

- Rust free durable plastic
- Integral, molded screen
- Angled rain diverter throat
- 17" x 18" flashing
