TrueComfort[®]

Blown-in Fiber Glass Insulation System

TRUECOMFORT WALL INSTALLATION KIT

This reusable kit includes the items you need to easily install TrueComfort blown-in fiber glass insulation in wall cavities using the TrueComfort machine.

To order call 1-800-237-7841

Although most parts can be purchased independently at your local retailer or lumberyard CertainTeed has compiled this kit for your convenience. The 3" hole saw required to drill into the sidewall is not included in the kit but is available separately.

Basic Kit \$26.50*

- One (1) 2" x 6' flexible, durable, corrugated plastic whip hose. This hose is inserted into the wall cavity for filling.
- One (1) 2-1/2" to 2" steel reducer. Use to quickly connect the TrueComfort machine hose to the smaller whip hose.
- Two (2) Stainless steel hose clamps to tightly attach the reducer to the whip hose.

Premium Directional Nozzle Attachment \$55.50*

- One (1) Durable, corrosion-resistant aluminized steel directional nozzle connects to the whip hose to help ensure an even distribution of insulation throughout the wall cavity. Easier to use than a whip hose alone to fill wall cavities.
- One (1) Stainless steel hose clamp to tightly attach the directional nozzle to the whip hose.
