Introducing More Value

Landmark® PRO is designed specifically for the professional roofing contractor that takes pride in providing more to their customer.

Landmark PRO improves upon the reliable CertainTeed Landmark shingle.

We started by adding more weathering asphalt to the industry's toughest fiberglass mat to provide more protection. Then we incorporated our Maximum Definition color blend technology to give the product more vibrancy on the roof. Included is the proven performance of our **NailTrak®** feature, enabling faster installation.

Landmark PRO offers the industry's strongest warranty. Protecting your reputation and safeguarding homeowners from manufacturing and aesthetic defects.

LANDMARK PRO STANDARD WARRANTY

- Lifetime Limited Warranty
- 10-years of SureStart™ protection
- 15-year 110 MPH wind warranty (Upgrade to 130 MPH available. CertainTeed starter and CertainTeed hip and ridge required.)
- Select colors are rated by the Cool Roof Rating Council (CRRC) for cool roofs and can be used to comply with the 2019 California Title 24 Part 6 Cool Roof Requirements
- Select colors can be used to comply with Los Angeles County, California Title 31 cool roof requirements for steep-sloped residential construction.

Add it all up and what you get is the opportunity to offer a lot of additional value for the money... and today that means more than ever.

NailTrak[®]

Fast, Accurate, Visible

Seeing is Believing

The new and improved NailTrak nailing line, featured on CertainTeed designer shingles.

Since its introduction in 2004 NailTrak has helped contractors install with speed, accuracy, and confidence.

Now NailTrak is brighter than ever before, with high-visibility lines that stand out whether it's daybreak or dusk.

NailTrak removes the guesswork with three separately defined lines, creating a large area to guide your nailing and a smaller area for extreme steep-slope applications.

Designed with installers in mind

Some nailing lines are set close to the shim. This can leave nail heads exposed after installation, which creates unsightly 'shiners' that reflect light and detract from the beauty of the roof.

NailTrak is offset from the shim at a distance that helps prevent exposed nail heads when the shingles are installed to manufacturer specifications.
