Now Including NorthGate® ClimateFlex® & Landmark® ClimateFlex®

LANDMARK® SERIES
Designer Roofing Shingles
Few things in this world are as precious as the place that you call home. It is much more than just a house. It’s the foundation from which you build your life. That’s why having a roof that gives your home long-lasting curb appeal and protection from the elements is so important. At CertainTeed, our benchmark for success is our customers’ total peace of mind. And we wouldn’t have it any other way.

Our dedication to making the highest-quality roofing systems continues to earn the respect of top building professionals. And our product portfolio offers the widest variety of design and color options in the industry. It’s no wonder that more than a million homeowners across North America choose CertainTeed each year.

And the job doesn’t stop once the roof goes on. Every CertainTeed product is backed by our industry-leading manufacturer’s warranty, allowing you to rest confidently and comfortably for years to come.
Technology that protects the beauty of your roof and strengthens its performance.
Landmark, shown in Moire Black

The ultimate in stain protection.

Those streaks you see on other roofs in your neighborhood? That’s algae, and it’s a common eyesore on roofing throughout North America. CertainTeed’s StreakFighter technology uses the power of science to repel algae before it can take hold and spread. StreakFighter’s granular blend includes naturally algae-resistant copper, helping your roof maintain its curb appeal and look beautiful for years to come.

NailTrak®
Fast, Accurate, Visible

The new and improved NailTrak nailing line, a feature on CertainTeed designer shingles.

Now NailTrak is brighter than ever before, with high-visibility lines that stand out whether it’s daybreak or dusk.

NailTrak removes the guesswork with three separately defined lines, creating a large area to guide your nailing and a smaller area for extreme steep-slope applications.

QuadraBond™
Advanced Layering

CertainTeed’s specially formulated adhesive adheres shingle layers at four points, more than any other manufacturer. This superior bond provides greater protection against shingle delamination to maximize performance over the life of the shingle in any climate.

StreakFighter®
Algae Resistance

The ultimate in stain protection.

Granule with
StreakFighter Technology
Owning a Landmark roof brings peace of mind. Landmark’s dual-layered construction and exceptional durability provide long-lasting protection for your home.

- Dual-layered for extra dimensionality and protection from the elements
- Offers the widest array of colors in the industry
- Independently certified as meeting the highest quality standards for roofing

 Outstanding Durability

LANDMARK®
ClimateFlex®

Featuring the latest advances in polymer science, CertainTeed’s ClimateFlex technology works at a molecular level to make shingles strong and pliable. The rubber-like qualities of the ClimateFlex asphalt formula provides each shingle with improved hail resistance, cold-weather flexibility, and granule adhesion than traditional asphalt shingles.

• Highest industry-rated impact protection
• Better pliability and granule adhesion
• Endures weathering and cold-weather extremes

Available in limited areas.
The Expert’s Choice

LANDMARK® PRO

A refined union of vision and value, our PRO line leads its class in optimal performance and variety of color.

• Engineered to meet professional contractors’ exacting specifications
• Available in a wide selection of eye-catching Max Def colors
• Outweighs standard laminates to provide greater protection from the elements

• Industry-best lifetime limited warranty
• 15-year StreakFighter® algae-resistance warranty
WARRANTY

• Lifetime limited transferable warranty against manufacturing defects on residential applications
• 50-year limited transferable warranty against manufacturing defects on group-owned or commercial applications (Landmark PRO, Landmark Premium and Landmark TL)
• StreakFighter® algae-resistance warranty (10-year – Landmark and Landmark ClimateFlex® 15-year – Landmark PRO, NorthGate ClimateFlex®, Landmark Premium and Landmark TL)
• 10-year SureStart™ protection
• 15-year 110 mph wind-resistance warranty
• Wind warranty upgrade to 130 mph available.
  CertainTeed starter and CertainTeed hip and ridge required
See actual warranty for specific details and limitations.

LANDMARK SERIES

SPECIFICATIONS

• Two-piece laminated fiberglass-based construction
• Three-piece (Landmark TL) laminated fiberglass-based construction
• Classic shades and dimensional appearance of natural wood or slate

For U.S. building code compliance, see product specification sheets.

CertainTeed products are tested to ensure the highest quality and comply with the following industry standards:

Fire Resistance:
• UL Class A
• UL certified to meet ASTM D3018 Type 1

Wind Resistance:
• UL certified to meet ASTM D3018 Type 1
• ASTM D3161 Class F

Tear Resistance:
• UL certified to meet ASTM D3462
• CSA standard A123.5

Wind Driven Rain Resistance:
• Miami-Dade Product Control Acceptance:
  Please reference www.certainteed.com to determine approved products by manufacturing location.

Impact Resistance:
• UL certified to meet UL 2218 Class 4
  (Landmark ClimateFlex® and NorthGate ClimateFlex®)

Quality Standards:
• ICC-ES-ESR-1389 & ESR-3537

The ColorView® Visualizer: Design your Dream Home with the Click of a Mouse

CertainTeed created the ColorView tool to help homeowners bring their creative vision to reality.

Just look through a photo library of homes to choose one that looks most like your own. Then click on the roof to easily switch designs and see what CertainTeed product looks best. You can choose from hundreds of different roofing design and color combinations, and even add roof accents in different colors. All before anyone raises a hammer.

Want to visualize different roofing styles on your own home? You can upload photos to ColorView and have them digitally masked by one of our design professionals, or use DIY mode to upload and mask your own photos.

Plus, you can print or share your ColorView photos with family and friends to get their feedback. Visit colorview.certainteed.com and get started.
Add a Little Accent to Your Roof

CertainTeed offers Mountain Ridge®, an accessory product used for capping hips and ridges. It is the perfect finishing touch for your roof, offering blended color and high-profile design. CertainTeed also offers Shadow Ridge®, a low-profile design for capping hip and ridges, now available in a ClimateFlex version.

Color Companion Products for Flat Roof Areas

With CertainTeed Flintlastic® SA, you can coordinate flat roof areas like carports, canopies and porches with your main roof. Flintlastic SA is a self-adhering low slope roofing product available in ten colors that complement some of the most popular CertainTeed shingles.
A COMPLETE APPROACH TO LONG LASTING BEAUTY AND PERFORMANCE

With as much care as you take in selecting the right contractor, choosing the right roof system is equally as important. A CertainTeed Integrity Roof System combines key elements that help ensure you have a well-built roof for long-lasting performance.

1. **Waterproofing Underlayment**
   The first step in your defense against the elements. Self-adhering underlayment is installed at vulnerable areas of your roof to help prevent leaks from wind-driven rain and ice dams.

2. **Water-Resistant Underlayment**
   Provides a protective layer over the roof deck and acts as a secondary barrier against leaks.

3. **Starter Shingles**
   Starter Shingles are the first course of shingles that are installed and designed to work in tandem with the roof shingles above for optimal shingle sealing and performance.

4. **Shingles**
   Choose from a variety of Good-Better-Best styles to complement any roof design and fit your budget.

5. **Hip & Ridge Caps**
   Available in numerous profiles, these accessories are used on the roof’s hip and ridge lines for a distinctive finishing touch to your new roof.

6. **Ventilation**
   A roof that breathes is shown to perform better and last longer. Ridge Vents, in combination with Intake Vents, allow air to flow on the underside of your roof deck, keeping the attic cooler in the summer and drier in the winter.
