Specifications

• Two-piece laminated fiber-glass-based construction
• Classic shades and dimensional appearance of natural wood or slate

For U.S. building code compliance, see product specification sheets. CertainTeed products are tested to assure the highest quality and comply with the following industry standards:

Fire Resistance:
• UL Class A
• UL certified to meet ASTM D3018 Type 1

Wind Resistance:
• UL certified to meet ASTM D3018 Type 1

Year Resistance:
• UL certified to meet ASTM D3462
• CSA standard A123.5

Wind Driven Rain Resistance:
• Miami-Dade Product Control Acceptance Criteria Standards:
  • ICC-ES-ESR-1389

Warranty

• Lifetimes limited transferable warranty against manufacturing defects on residential applications
• 10-year StreetFighter® algae-resistance warranty
• 10-year SureStart™ protection
• 10-year 130 mph wind-resistance warranty*

*See warranty for application requirements.

Integrity Roof System™
A COMPLETE APPROACH TO LONG LASTING BEAUTY AND PERFORMANCE

With as much care as you take in selecting the right contractor, choosing the right roof system is equally important. CertainTeed’s Integrity Roof System contains key elements that help ensure you have a well-built roof for long-lasting performance.

1. Waterproofing Underlayment
The first step in your defense against the elements. Self-adhering underlayment is installed at vulnerable areas of your roof to help prevent leaks.

2. Water-Resistant Underlayment
Provides a protective layer over the roof deck and acts as a secondary barrier against leaks.

3. Starter Shingles
Starter Shingles are the first course of shingles that are installed and designed to work in tandem with the roof shingles above for optimal shingle sealing and performance.

4. Shingles
Choose from a variety of Good-Better-Best styles to complement any roof design and fit your budget.

5. Hip & Ridge Caps
Available in numerous profiles, these accessories are used on the roof’s hip and ridge lines for a distinctive finishing touch to your new roof.

6. Ventilation
A roof that breathes is shown to perform better and last longer. Ridge Vents, in combination with Intake Vents, allow air to flow on the underside of your roof deck, keeping the attic cooler in the summer and drier in the winter.

Brighter, more vibrant, dramatic depth of color.

Integrity Roof System™
A COMPLETE APPROACH TO LONG LASTING BEAUTY AND PERFORMANCE

With as much care as you take in selecting the right contractor, choosing the right roof system is equally important. CertainTeed’s Integrity Roof System™, with key elements that help ensure you have a well-built roof for long-lasting performance:

1. Waterproofing Underlayment
   - The first step in your defense against the elements. Self-adhering underlayment is installed at vulnerable areas of your roof to help prevent leaks from wind-driven rain and ice dams.

2. Water-Resistant Underlayment
   - Provides a protective layer over the roof deck and acts as a secondary barrier against leaks.

3. Starter Shingles
   - Starter Shingles are the first course of shingles that are installed and designed to work in tandem with the roof shingles above for optimal shingle sealing and performance.

4. Shingles
   - Choose from a variety of Good-Better-Best styles to complement any roof design and fit your budget.

5. Hip & Ridge Caps
   - Available in numerous profiles, these accessories are used on the roof's hip and ridge lines for a distinctive finishing touch to your new roof.

6. Ventilation
   - A roof that breathes is shown to perform better and last longer. Ridge Vents, in combination with Intake Vents, allow air to flow on the underside of your roof deck, keeping the attic cooler in the summer and drier in the winter.
Max Def Colors

Look deeper. With Max Def, a new dimension is added to shingles with a richer mixture of surface granules. You get a brighter, more vibrant, more dramatic appearance and depth of color. And the natural beauty of your roof shines through.
