Trust Your Home to Landmark® Solaris
The heat reflects away, and your home stays cool.

The CertainTeed Cool Roof Shingle Collection is a brilliant breakthrough that puts cool roof technology to work for you. Plus, our palette of rich, authentic colors makes it an easy choice for eco-friendly living.

The secret is in CertainTeed’s advanced roofing granules that reflect solar energy and radiant heat far better than traditional roofing shingles, reducing your roof’s temperature in the summer.

CertainTeed Cool Roof Shingles are ecologically smart, beautifully durable, and architecturally ideal for sunny climates or anywhere solar heat is a challenge.

Technology that protects the beauty of your roof and strengthens its performance.

**NAILTrak® Shingle Technology**

**The bond that holds it together.**

For more than a decade, NailTrak has improved shingle installation by providing a nailing area three times wider than that of a typical laminate shingle. This increases efficiency and accuracy in installation, providing homeowners greater peace of mind. Landmark® Solaris shingles also feature our specially-formulated Quadra-Bond® adhesive, providing industry-leading resistance to delamination. Together, our NailTrak and Quadra-Bond technologies deliver the strength and durability that allow your roof to stand the test of time.
Owning a Landmark Solaris roof brings peace of mind. Landmark Solaris’s dual-layered construction and exceptional durability provide long-lasting protection for your home.

• Dual-layered for extra dimensionality and protection from the elements
• Offers the widest array of colors in the industry
• Independently certified as meeting the highest quality standards for roofing
• All are rated by the Cool Roof Rating Council (CRRC) and can be used to comply with the 2019 California Title 24 Part 6 Cool Roof Requirements
• Select colors can be used to comply with Los Angeles County, California Title 31 cool roof requirements for steep-sloped residential construction

Depth of Character

LANDMARK® TL SOLARIS

Dramatically thick. Classically elegant. These wood-inspired shakes offer triple lamination for rugged wear with real charisma.

- Look of hand-split cedar
- Patented 3-layer laminate
- Random tab design and unique natural shadows
- A luxury-class shingle produced at a fraction of the cost of wood shake
- All are rated by the Cool Roof Rating Council (CRRC) and can be used to comply with the 2019 California Title 24 Part 6 Cool Roof Requirements

See next page for full color palette.

For U.S. building code compliance, see product specification sheets.

CertainTeed products are tested to ensure the highest quality and comply with the following industry standards:

Fire Resistance:
• UL Class A
• UL certified to meet ASTM D3018 Type 1

Wind Resistance:
• UL certified to meet ASTM D3018 Type 1
• ASTM D3161 Class F

Tear Resistance:
• UL certified to meet ASTM D3462
• CSA standard A123.5

Quality Standards:
• ICC-ES-ESR-1389 & ESR-3537

WARRANTY
• Lifetime limited transferable warranty against manufacturing defects on residential applications
• 50-year limited transferable warranty against manufacturing defects on group-owned or commercial applications (Landmark PRO Solaris and Landmark TL Solaris)
• 15-year StreakFighter® algae-resistance warranty (Landmark TL Solaris - where available)
• 10-year SureStart™ protection
• 15-year 110 mph wind-resistance warranty
• Wind warranty upgrade to 130 mph available.

See actual warranty for specific details and limitations.
Integrity Roof System™
A COMPLETE APPROACH TO LONG LASTING BEAUTY AND PERFORMANCE

With as much care as you take in selecting the right contractor, choosing the right roof system is equally as important. A CertainTeed Integrity Roof System combines key elements that help ensure you have a well-built roof for long-lasting performance.

1. **Waterproofing Underlayment**
The first step in your defense against the elements. Self-adhering underlayment is installed at vulnerable areas of your roof to help prevent leaks from wind-driven rain and ice dams.

2. **Water-Resistant Underlayment**
Provides a protective layer over the roof deck and acts as a secondary barrier against leaks.

3. **Starter Shingles**
Starter Shingles are the first course of shingles that are installed and designed to work in tandem with the roof shingles above for optimal shingle sealing and performance.

4. **Shingles**
Choose from a variety of Good-Better-Best styles to complement any roof design and fit your budget.

5. **Hip & Ridge Caps**
Available in numerous profiles, these accessories are used on the roof’s hip and ridge lines for a distinctive finishing touch to your new roof.

6. **Ventilation**
A roof that breathes is shown to perform better and last longer. Ridge Vents, in combination with Intake Vents, allow air to flow on the underside of your roof deck, keeping the attic cooler in the summer and drier in the winter.
