ROOFING SELECTION GUIDE
Luxury, Designer & Traditional Roofing Shingles
NOTE: Due to limitations of printing reproduction, CertainTeed cannot guarantee the identical match of the actual product color to the graphic representations throughout this publication.
You know it when you see it.

It’s not just a roof. It’s a CertainTeed roof.

When you select a roof for your home, there’s a lot to consider.

That’s when a roof becomes more than just a roof. The same way a home is more than just a house.

You want the best for your home and everything in it.

So why guess, when you can be Certain?
Insist upon the
Integrity Roof System™
and get the ultimate in roof performance!
A superior roof is stronger than the sum of its parts

Your roof should do more than shield the elements. It should protect your home, and more importantly, everything you care about.

The Integrity Roof System is designed to provide optimum performance, day after day, year after year. It’s a full suite of roofing components engineered to complement each other and create an active defense against whatever gets in your home’s way.

After all, the Integrity Roof System is backed by the power of CertainTeed – and better-quality components means you’ve got a roof system built to protect against even the most extreme conditions.

1. **Waterproofing Underlayment**  
Waterproofing shingle underlayment prevents leaks from wind-driven rain and ice dams

2. **Water-Resistant Underlayment**  
High-performance underlayment provides a water-resistant layer over the roof deck and a secondary barrier against leaks

3. **Starter Shingles**  
Perfect starts every time and designed to work in tandem with the roof shingles above

4. **Roof Shingles**  
Choose the best, covered by the strongest warranty in the business

5. **Hip & Ridge Caps**  
Perfect finish for hip and ridge lines, complementing all CertainTeed shingles

6. **Roof Ventilation**  
Engineered for ideal roof ventilation especially when matched with CertainTeed Intake Vents
Technology that protects the beauty of your roof and strengthens its performance.

THE ULTIMATE IN STAIN PROTECTION.

Those streaks you see on other roofs in your neighborhood? That’s algae, and it’s a common eyesore on roofing throughout North America. CertainTeed’s StreakFighter technology uses the power of science to repel algae before it can take hold and spread. StreakFighter’s granular blend includes naturally algae-resistant copper, helping your roof maintain its curb appeal and look beautiful for years to come.

Introducing... ClimateFlex®

All-Weather Application

Outstanding durability. Featuring the latest advances in polymer science, CertainTeed’s ClimateFlex technology works at a molecular level to make shingles strong and pliable. The rubber-like qualities of the ClimateFlex asphalt formula provides each shingle with improved hail resistance, cold-weather flexibility, and granule adhesion.
NailTrak®
Fast, Accurate, Visible

The new and improved NailTrak nailing line, a feature on CertainTeed designer shingles.

Now NailTrak is brighter than ever before, with high-visibility lines that stand out whether it’s daybreak or dusk.

NailTrak removes the guesswork with three separately defined lines, creating a large area to guide your nailing and a smaller area for extreme steep-slope applications.

QuadraBond™
Advanced Layering

CertainTeed’s specially formulated adhesive adheres shingle layers at four points, more than any other manufacturer. This superior bond provides greater protection against shingle delamination to maximize performance over the life of the shingle in any climate.
Luxury Shingles

Luxury shingles are the highest-quality laminated shingles available, offering a differentiated appearance or functionality that exceeds designer shingles. Apart from offering premium protection for weathering, luxury shingles provide stunning visuals, presenting the highest quality, coloration, and dimensionality. These products offer the most realistic representation of old-world wood shake and quarried slate roofing.
GRAND MANOR®

- Two full-size, fiberglass-based shingles with randomly applied tabs
- Authentic depth and dimension of natural slate
- Virtual five-layer coverage when applied
- Lifetime limited transferable warranty – residential*
- 50-year limited transferable warranty – group-owned or commercial*
- 15-year StreakFighter® algae-resistance warranty
- 10-year SureStart™ protection
- 15-year 110 mph wind-resistance warranty
- Wind warranty upgrade to 130 mph available. CertainTeed starter and CertainTeed hip and ridge required
- High-Performance Starter and hip and ridge accessory available (see details in back of brochure)

CertainTeed products are tested to ensure the highest quality and comply with the following industry standards:

**Fire Resistance:**
- UL Class A
- UL certified to meet ASTM D3018 Type 1

**Wind Resistance:**
- UL certified to meet ASTM D3018 Type 1
- ASTM D3161 Class F

**Tear Resistance:**
- UL certified to meet ASTM D3462
- CSA standard A123.5

**Wind Driven Rain Resistance:**

**Quality Standards:**
- ICC-ES-ESR-1389 & ESR-3537

* See warranty for specific details and limitations.

**Wind Driven Rain Resistance:**

**Quality Standards:**
- ICC-ES-ESR-1389 & ESR-3537
Also known as architectural or dimensional shingles, designer shingles are the most prevalent asphalt shingles installed in North America. These products are manufactured with two or more layers of asphalt that are fused together for a thicker and richer multi-dimensional appearance, and are engineered to replicate the aesthetics of wood shake and natural slate roofing. Designer shingles are typically heavier than strip shingles and have improved warranty protection.
LANDMARK® PREMIUM

- Two-piece laminated fiberglass-based construction
- Classic shades and dimensional appearance of natural wood or slate

Shadow Ridge®
- For hip and ridge capping
- Single-layer coverage for product versatility
- Sealant strip for maximum adherence
- Dimensions are 12" x 12", with a 5" exposure
- Can be used on shingle-over vents or directly over centerline of hip or ridge
- Available in complementary product colors (see individual Roofing Plant Catalogs for color availability)
- Available in ClimateFlex® version, to be used with ClimateFlex® Shingles

Cedar Crest®
- Dimensions are (overall) 12" x 36", separated into individual pieces 12" x 12", with an 8" exposure
- Covers 20 lineal feet per bundle
- Matches Landmark Series, Presidential Shake, Presidential Shake TL, Highland Slate and Belmont colors

Shangle® Ridge Accessory
- Hip and ridge capping
- Two full layers
- 12" width allows application over standard ridge vents
- Full 8" exposure
- Matches all Grand Manor, Highland Slate, Carriage House and Belmont colors
- Algae resistant

Mountain Ridge®
- Fiberglass reinforced SBS modified bitumen
- Five layer design with tri-laminate base
- 10" width
- 8" exposure
What’s behind our #1 rating?

Builders and remodelers across America know certain things to be true of CertainTeed. For starters, we’ve been in the roofing business for over 100 years. We have thousands of satisfied homeowners. The process of building that satisfaction begins the moment you turn to us.

CertainTeed offers you the broadest range of color and style choices. But you’ll see it’s not style over substance. You’ll get a roof that’s made from the highest quality materials and backed by a strong warranty program. It’s our promise to you: quality made certain, satisfaction guaranteed.

Color Companion Products™ for Flat Roof Areas

With CertainTeed Flintlastic® SA, you can coordinate flat roof areas like carports, canopies and porches with your main roof. Flintlastic SA is a self-adhering low slope roofing product available in colors that complement some of the most popular CertainTeed shingles.
When snow and ice melt, trapped water can infiltrate to damage the roof deck and building interior.

WinterGuard is installed under shingled roofing to prevent water damage from ice dams, as well as wind-driven rain.

WinterGuard Sand and WinterGuard Granular are designed for use on roof decks as a waterproofing underlayment beneath shingle, slate and tile roofs to prevent leakage due to water backup from ice dams or wind-driven rain. WinterGuard HT, an advanced waterproofing underlayment, is specially formulated to resist high roof temperatures and is the only WinterGuard product to be warranted for use under metal roofs. WinterGuard is most commonly used in critical areas such as roof eaves, valleys and low-slope applications.

WinterGuard is classified by Underwriters Laboratories (UL) to be a suitable underlayment for use in any UL Class A, B or C fire rated shingle system, and it is manufactured to meet ASTM D1970.

**WINTERGUARD® METAL**

WinterGuard Metal self-adhering underlayment has a tough, tear-resistant film on its top surface that will not scratch roofing metal applied over it. The adhesive bottom surface of WinterGuard Metal is protected with a disposable silicone-coated release film, which is split longitudinally down the middle for easier application. Manufactured to meet ASTM D1970.

For specific details and limitations, refer to the actual product warranties.

**DIAMONDDECK®**

DiamondDeck is a synthetic, scrim-reinforced, water-resistant underlayment that can be used beneath shingle, shake, metal, or slate roofing. It is manufactured to provide best-in-class performance in terms of both weather protection and contractor safety. 10-square roll (4-foot wide and 250-foot long) is easier to handle and faster to apply than standard felt rolls.

**ROOFRUNNER®**

Lightweight synthetic polymer-based underlayment outperforms felt and outclasses other synthetics. Designed for use on roof decks as a water-resistant layer beneath asphalt roofing shingles, this scrim-reinforced underlayment includes a special top surface treatment that provides excellent slip resistance, even when wet. Large roll size - 4ft wide x 250 ft long - speeds application.
SureStart™
Protection

Because CertainTeed roofing products are manufactured to the highest quality standards, we confidently include the additional assurance of SureStart™ protection with all CertainTeed shingles. SureStart provides the strongest protection you can get in the vital early years after your new roof has been installed.

Simply put, if a manufacturing defect is discovered during the SureStart period, CertainTeed will provide reimbursement of 100% of the cost of the shingles and labor to repair the defective shingles or apply new shingles to replace the defective shingles.

See actual warranty for details and limitations.

**High-Performance Starter**

Starter Course shingle specifically for use with Grand Manor, Belmont and Highland Slate—and the only approved installation alternative to using the shingles themselves.

- 10” x 36”, 102 lineal ft. per bundle, 34 shingles per bundle
- Provides labor and cost savings by not cutting shingles
- Dual sealant strip for increased wind resistance
- Better look with straight factory-cut eave edge

**Presidential Starter**

Required for Presidential Shake TL and Presidential Shake applications.

- 13 1/4” x 40” (required double layer), 36.5 lineal ft. per bundle (based on 2-layer application), 22 shingles per bundle
- Two layers of straight factory-cut eave edge
- Available in the entire Presidential Shake TL and Presidential Shake color line
- Assures Class A fire rating
- Saves significant installation time

**CertainTeed Swiftstart**

CertainTeed Swiftstart metric starter shingle is designed specifically for use with CertainTeed Landmark Series shingles. Rather than cutting expensive field shingles to use as starters, you can save time and money by starting with Swiftstart.

- Code-compliant, meets min. 2” headlap requirement for metric shingles; many competing products do not
- Each 18-piece bundle covers 116 lineal ft.
- Recommended for use to obtain enhanced warranties

**Shadow Ridge**

- Hip and ridge for Presidential TL, Presidential Shake and Landmark Series; 30 lineal ft. per bundle; 24 shingles per bundle
- Available in ClimateFlex® version, to be used with ClimateFlex® shingles.

**Shangle Ridge Accessory**

- Hip and ridge for Grand Manor, Carriage House, Highland Slate and Belmont; 10 lineal ft. per bundle; 15 shingles per bundle

**Mountain Ridge**

- Hip and ridge for Presidential TL, Presidential Shake, Presidential Solaris, Landmark Series and Landmark Solaris

**Cedar Crest**

- Hip and ridge for Landmark Series, Presidential Shake, Presidential Shake TL, Highland Slate and Belmont; 20 lineal ft. per bundle
- IR version available in select colors

**Ventilation**

- CertainTeed Ridge Vent 12” filtered and non-filtered
- CertainTeed Ridge Vent 9” filtered
- CertainTeed Rolled Ridge Vent unfiltered
- CertainTeed Intake Vent filtered

---

*CertainTeed starter and CertainTeed hip and ridge required.
