You know it when you see it.

It’s not just a roof. It’s a CertainTeed roof.

When you select a roof for your home, there’s a lot to consider.

That’s when a roof becomes more than just a roof. The same way a home is more than just a house.

You want the best for your home and everything in it.

So why guess, when you can be Certain?
PRESIDENTIAL SHAKE® TL

• Three-piece laminated fiberglass construction
• Distinctive sculpted, rustic look
• Lifetime limited transferable warranty – residential*
• 50-year limited transferable warranty – group-owned or commercial*
• 15-year StreakFighter® algae-resistance warranty (where available)
• 10-year SureStart™ protection
• 15-year 110 mph wind-resistance warranty
• Wind warranty upgrade to 130 mph available. CertainTeed starter and CertainTeed hip and ridge required
• Presidential Starter (required) and hip and ridge accessory available (see details in back of brochure)

* See warranty for specific details and limitations.

SHANGLE® RIDGE ACCESSORY

- Hip and ridge capping
- Two full layers
- 12" width allows application over standard ridge vents
- Full 8" exposure
- Matches all Grand Manor, Highland Slate and Carriage House colors
- Algae-resistant

SHADOW RIDGE®

- Used for hip and ridge capping
- Single-layer coverage for product versatility
- Sealant strip for maximum adherence
- 9 3/4" wide with a 5 5/8" exposure; covers 45 lineal feet per bundle
- Can be used on shingle-over vents or directly over centerline of hip or ridge
- Available in complementary product colors (see individual Roofing Plant Catalogs for color availability)

SOLARIS® HIP AND RIDGE

- Used for hip and ridge capping
- Matches Landmark Solaris shingle colors
- Solaris hip and ridge for Max Def colors is 9 3/4" wide (45 lineal ft/bdl)
- Solaris hip and ridge for non-max def colors and Solaris IR is 12" Wide (33.75 lineal ft/bdl)

MOUNTAIN RIDGE®

- Fiberglass reinforced SBS modified bitumen
- Five layer design with tri-laminate base
- 10" width
- 8" exposure
Technology that protects the beauty of your roof and strengthens its performance.

THE ULTIMATE IN STAIN PROTECTION.

Those streaks you see on other roofs in your neighborhood? That’s algae, and it’s a common eyesore on roofing throughout North America. CertainTeed’s StreakFighter technology uses the power of science to repel algae before it can take hold and spread. StreakFighter’s granular blend includes naturally algae-resistant copper, helping your roof maintain its curb appeal and look beautiful for years to come.

THE BOND THAT HOLDS IT TOGETHER.

For more than a decade, NailTrak has improved shingle installation by providing a nailing area three times wider than that of a typical laminate shingle. This increases efficiency and accuracy in installation, providing homeowners greater peace of mind. Landmark® shingles also feature our specially-formulated Quadra-Bond® adhesive, providing industry-leading resistance to delamination. Together, our NailTrak and Quadra-Bond technologies deliver the strength and durability that allow your roof to stand the test of time.
Underlayment Protection

WINTERGUARD®

When snow and ice melt, trapped water can infiltrate to damage the roof deck and building interior.

WinterGuard is installed under shingled roofing to prevent water damage from ice dams, as well as wind-driven rain.

WinterGuard Sand and WinterGuard Granular are designed for use on roof decks as a waterproofing underlayment beneath shingle, slate and tile roofs to prevent leakage due to water backup from ice dams or wind-driven rain. WinterGuard HT, an advanced waterproofing underlayment, is specially formulated to resist high roof temperatures and is the only WinterGuard product to be warranted for use under metal roofs. WinterGuard is most commonly used in critical areas such as roof eaves, valleys and low-slope applications.

WINTERGUARD® METAL

WinterGuard Metal self-adhering underlayment has a tough, tear-resistant film on its top surface that will not scratch roofing metal applied over it. The adhesive bottom surface of WinterGuard Metal is protected with a disposable silicone-coated release film, which is split longitudinally down the middle for easier application. Manufactured to meet ASTM D1970.

WinterGuard is classified by Underwriters Laboratories (UL) to be a suitable underlayment for use in any UL Class A, B or C fire rated shingle system, and it is manufactured to meet ASTM D1970. For specific details and limitations, refer to the actual product warranties.

ROOFERS’ SELECT®

This revolutionary high-performance underlayment combines new technology with the best attributes of true 15 and 30 lb. felt. It lays flat and is extremely resistant to wrinkling, reduces the likelihood of slipping for increased safety, doesn’t tear away from fasteners when walked on or in strong wind and meets underlayment requirements for the CertainTeed Integrity Roof System™.

DIAMONDDECK®

DiamondDeck is a synthetic, scrim-reinforced, water-resistant underlayment that can be used beneath shingle, shake, metal, or slate roofing. It is manufactured to provide best-in-class performance in terms of both weather protection and contractor safety. 10-square roll (4-foot wide and 250-foot long) is easier to handle and faster to apply than standard felt rolls.

ROOFRUNNER®

Lightweight synthetic polymer-based underlayment outperforms felt and outclasses other synthetics. Designed for use on roof decks as a water-resistant layer beneath asphalt roofing shingles, this scrim-reinforced underlayment includes a special top surface treatment that provides excellent slip resistance, even when wet. Large roll size - 4ft wide x 250 ft long - speeds application.

SureStart™ Protection

Because CertainTeed roofing products are manufactured to the highest quality standards, we confidently include the additional assurance of SureStart™ protection with all CertainTeed shingles. SureStart provides the strongest protection you can get in the vital early years after your new roof has been installed.

Simply put, if a manufacturing defect is discovered during the SureStart period, CertainTeed will provide reimbursement of 100% of the cost of the shingles and labor to repair the defective shingles or apply new shingles to replace the defective shingles. See actual warranty for details and limitations.

High-Performance Starter

Starter Course shingle specifically for use with Grand Manor and Highland Slate—and the only approved installation alternative to using the shingles themselves.

- 10" x 36", 102 lineal ft. per bundle, 34 shingles per bundle
- Provides labor and cost savings by not cutting shingles
- Dual sealant strip for increased wind resistance
- Better look with straight factory-cut eave edge

Presidental Starter

Required for Presidential Shake TL and Presidential Shake applications.

- 13 1/4" x 40" (required double layer), 36.5 lineal ft. per bundle (based on 2-layer application), 22 shingles per bundle.
- Two layers of straight factory-cut eave edge
- Available in the entire Presidential Shake TL and Presidential Shake color line
- Assures Class A fire rating
- Saves significant installation time

CertainTeed Swiftstart®

CertainTeed Swiftstart metric starter shingle is designed specifically for use with CertainTeed Landmark Series shingles. Rather than cutting expensive field shingles to use as starters, you can save time and money by starting with Swiftstart.

- Code-compliant, meets min. 2" headlap requirement for metric shingles; many competing products do not
- Each 18-piece bundle covers 116 lineal ft.
- Recommended for use to obtain enhanced warranties

Shingle® Ridge Accessory

- Hip and ridge for Grand Manor, Carriage House and Highland Slate; 10 lineal ft. per bundle; 15 shingles per bundle

Shadow Ridge®

- Hip and ridge for Landmark TL and Landmark Series; 45 lineal ft. per bundle; 24 shingles per bundle

Mountain Ridge®

- Hip and ridge for Presidential TL, Presidential Shake, Presidential Solaris, Landmark TL, Landmark Series and Landmark Solaris

Solaris® Hip and Ridge

- Used for hip and ridge capping
- Matches Landmark Solaris shingle colors
- Covers 45 lineal feet per bundle; 24 shingles per bundle

NorthGate® Ridge

- Hip and ridge for NorthGate shingles

Ventilation

- CertainTeed Ridge Vent 9" filtered
- CertainTeed Ridge Vent 12" filtered
- CertainTeed Rolled Ridge Vent filtered

** Wind warranty upgrade to 130 mph available. CertainTeed starter and CertainTeed hip and ridge required.
Color Companion Products™ for Flat Roof Areas

With CertainTeed Flintlastic® SA, you can coordinate flat roof areas like carports, canopies and porches with your main roof. Flintlastic SA is a self-adhering low slope roofing product available in colors that complement some of the most popular CertainTeed shingles.

What’s behind our #1 rating?

Builders and remodelers across America know certain things to be true of CertainTeed. For starters, we’ve been in the roofing business for over 100 years. We have thousands of satisfied homeowners. The process of building that satisfaction begins the moment you turn to us.

CertainTeed offers you the broadest range of color and style choices. But you’ll see it’s not style over substance. You’ll get a roof that’s made from the highest quality materials and backed by a strong warranty program. It’s our promise to you: quality made certain, satisfaction guaranteed.
Because it’s more than just a roof

Matterhorn Metal Roofing takes the form of slate, tile or wood shake to create a beautiful roof that makes a lasting impression.

Replicate the charm of artisanal roofing at a fraction of the cost with durable, lightweight steel.

Includes a lifetime limited warranty. Laboratory tested to resist fire, wind and hail.

Features a proprietary multi-coat paint system that offers 17 hyper-realistic color options across all profiles, including 16 CRRC-rated cool roofing colors.
Integrity Roof System™
A COMPLETE APPROACH TO LONG LASTING BEAUTY AND PERFORMANCE

With as much care as you take in selecting the right contractor, choosing the right roof system is equally as important. A CertainTeed Integrity Roof System combines key elements that help ensure you have a well-built roof for long-lasting performance.

1. Waterproofing Underlayment
   The first step in your defense against the elements. Self-adhering underlayment is installed at vulnerable areas of your roof to help prevent leaks from wind-driven rain and ice dams.

2. Water-Resistant Underlayment
   Provides a protective layer over the roof deck and acts as a secondary barrier against leaks.

3. Starter Shingles
   Starter Shingles are the first course of shingles that are installed and designed to work in tandem with the roof shingles above for optimal shingle sealing and performance.

4. Shingles
   Choose from a variety of Good-Better-Best styles to complement any roof design and fit your budget.

5. Hip & Ridge Caps
   Available in numerous profiles, these accessories are used on the roof’s hip and ridge lines for a distinctive finishing touch to your new roof.

6. Ventilation
   A roof that breathes is shown to perform better and last longer. Ridge Vents, in combination with Intake Vents, allow air to flow on the underside of your roof deck, keeping the attic cooler in the summer and drier in the winter.
