

LogoCheck™

Your brand is a statement of who you are – and a strong logo is a first step in creating your brand image. CertainTeed graphic design professionals can create a unique logo, or enhance the one you have. We'll also provide logo placement suggestions for letterhead, business cards and other formats.

People engaged in branding seek to develop or align the expectations behind the brand experience, creating the impression that a brand associated with a product or service has certain qualities or characteristics that make it special or unique. A brand is therefore one of the most valuable elements in an advertising theme, as it demonstrates what the brand owner is able to offer in the marketplace.

Benefits of good logo:

- ◆ Communicates your company message quickly and effectively
- ◆ Establishes brand name recognition of your company in prospects minds
- ◆ Another source of lead generation
