Moisture management to protect your home

CertainTeed STONEfaçade™ Ledgestone features the industry’s only fully-integrated rainscreen, providing additional structural support and ample drainage from top to bottom for outstanding moisture management and protection of your most important investment. Our rainscreen prevents potential structural damage and mold, a common occurrence when masonry products are installed without a well-defined drainage space.

Stone veneer panels for easy installation

Your siding contractor will install it quickly and cleanly, saving time and money on your installation. The STONEfaçade system includes components that are designed to work together seamlessly, integrating with new or existing exterior cladding for a beautiful finished appearance.

3 panel widths are randomly pre-mixed in a carton to optimize panel’s appearance.

Note: STONEfaçade is suitable for use in two-story exterior applications up to 30’ high.

Designed for years of worry-free performance, STONEfaçade requires no sealing, coating or mortar. And unlike actual individual stone and other manufactured stone cladding products, STONEfaçade Ledgestone is an easy-to-install panelized system.

In addition, the unique design of the fully-integrated rainscreen provides moisture management protection for your walls and provides a simplified means of installation.
CertainTeed enhances the look and performance of natural stone. Building science experts at CertainTeed understand the best way to combine material performance and design. Utilizing their extensive knowledge and experience, they developed an easy-to-install product that faithfully replicates the look and feel of real stone. This patent pending product has been tested to withstand the industry’s most stringent performance standards.
The engineering of CertainTeed STONEfaçade™, molded from natural, hand-picked stone, blends the rugged beauty of the popular ledgestone style with modern performance features to ensure long-lasting beauty that will endure for years to come. No two panels look exactly alike from our manufacturing process.

Warranty

Engineered to withstand the test of time, CertainTeed stands behind it with a 20-year limited warranty for added assurance and peace of mind.

Number one Brand

In national surveys, CertainTeed siding is the brand most preferred by building professionals and homeowners. CertainTeed has been an industry leader for over 110 years. CertainTeed siding offers lower environmental impact versus other cladding options.

1 Look for color palette ideas in your surroundings, including landscaping, trees and gardens in your neighborhood and the larger area where you live. The colors you pick for your interior walls can also influence your exterior walls.

2 You may be inspired by your neighbors’ color schemes, but it is a good idea to avoid copying them exactly and best to create your own unique combination that sets your home apart. In most cases, you want your home to fit in but not clash with nearby buildings.

3 You need to first consider the appearance of any features on the home that will remain unchanged and harmonize your stone color with them. This includes roofing, masonry, siding, stairways, doors, etc.

4 If your home’s architectural style is very distinct (Colonial, Greek Revival, etc.) you will get best results if your color selection and treatment complements its original design.
