

Cedar Impressions Straight Edge Rough-Split Shakes in terra cotta and Monogram Double 4" Clapboard in spruce are a rich color and style combination for this Arizona home.

Cedar Impressions Individual 5" Sawmill Shingles in rustic blend with Restoration Millwork trim in natural white and Vinyl Carpentry trim in colonial white. The bright trim makes windows, corners and door stand out from the rich, dark siding color and gives it a clean look.

STRONG AND BOLD

Get in tune with current trends by choosing darker colors for exterior walls. Rich shades of brown, green and red add drama while also making your home appear smaller, a good thing for a large structure on a tight lot. Deep siding hues serve as visual grounding for a variety of strong trim colors and also work well for accenting recessed areas.
