**TRADITIONAL SHINGLES**

# Three Levels of Protection

If you're looking for shingles with staying power, your search stops here.

When it comes to weathering the elements, XT™ 30 (Impact Resistant), XT™ 25, and CT™ 20 are at the top of their class. Built on a tough fiber glass base, each shingle is a little heavier than the next with added warranty and wind protection.

New, impact resistance XT 30 is a stopper in more ways than one. Proven to withstand the force of a 2" steel ball dropped from a height of 20', it is one beauty that does double-duty.

If you want a three-tab shingle that has quality and price nailed down, both XT 25 and CT 20 offer an intelligent balance of strength, reliability and value.

All products conform to the following specifications:

- Fiber glass composition
- UL Class A fire resistance
- UL certified to meet ASTM D3462
- UL certified to meet ASTM D3018 Type 1
- Conforms to CSA standard A123.5-98

**XT 30 impact resistant shingles meet UL 2218 Class 4 rating for impact resistance.**

*For U.S. building code compliance, see product specification sheets.*

# Color Companion Products™ for Flat Roof Areas

With CertainTeed Flintlastic® SA, you can coordinate flat roof areas like carports, canopies and porches with your main roof. Flintlastic SA is a self-adhering low slope roofing product available in eight colors that complement some of the most popular CertainTeed shingles.

## A beautiful roof makes a beautiful home.

In addition to our traditional three-tab shingles, CertainTeed also offers a complete line of luxury and designer shingles that can transform your home into a warm work of art, gracefully and easily.

*Limited transferable warranty, including SureStart™ protection, is applicable only in the United States, its territories and Canada; for products sold outside these areas, please refer to the International Warranty for specific details and limitations.*

*NOTE: Due to limitations of printing reproduction, CertainTeed can not guarantee the identical match of the actual product color to the graphic representations throughout this publication.*
