CertainTeed window and door trim puts out the welcome mat to create a lasting first impression. Lineal trim adds a wider face profile that can help unify and accent a home’s exterior, adding a design element that can be both subtle and distinctive. For even more personality and charm, add crown molding, with or without a corner block & rosette above the door or window. It’s a look you’ll appreciate every time you cross the threshold into your beautiful home.

From window and door casing to lineals, CertainTeed offers a complete selection of virtually maintenance-free Vinyl Carpentry® to define your home.

Fast facts:
Rosettes are circular decorative elements found in early Greek monuments, but also found on Federal-style architecture homes built in the early 17th/late 18th century.

Crown molding dates back to the time of the ancient Greeks and Romans, used for "crowning" an architectural element.

Simple
3/4" pocket J-channel surround.

More Definition
Crown molding and crown molding end caps with 3-1/2" lineal header and 3-1/2" lineal surrounds.

Classic Enhancement
Crown molding and crown molding end caps with 5" lineal header, 5" header end caps* and 3-1/2" lineal surrounds.

* Fabricated on site. Please refer to install manual CTS205 for complete instructions.
Using combinations of lineals or adding a corner block offers that little touch to add personality on any home.

3-1/2" Snap-On Lineal
Lineals snap onto 1" face J-Channel; eliminates nailing and rain tabs.

3-1/2" Lineal
For use with a new construction window and door starter around windows and doors as a casing. The 3/4" channel receives siding panels. Can also be used to create a corner system.

5" Lineal
Two lineals create a corner system when installed with a Corner Starter and a corner insert. Can also be used with a window starter strip as a window/door casing. The 3/4" channel receives siding panels.
