

5-Star Contractor Webcheck™ Service: Make your website work for you!

Current website not meeting your needs?

Let us do a WebCheck Assessment of your current site. We'll give you a summary analysis along with practical suggestions to make it more effective.

The WebCheck Assessment analyzes your site for these four major categories:

- Design/Layout
- Usability & Navigation
- Content
- Website Findability

Our professional web designers will look carefully at your site and provide simple, specific improvements that can be made by you or your web developer. These suggestions are based on industry best practices combined with a thorough knowledge of the construction and remodeling market.

Along with specific recommendations, WebCheck includes general suggestions on strategies and tools to help you get the most return on your site in the future, as well as build customer loyalty. This is no "one size fits all" report; this is custom tailored to your site. Get the 5-Star Contractor Webcheck Service now and start making your site work for you!

Don't have a website?

Time for you to take advantage of Certainteed's 5-Star Contractor Website Service.

We've put together an affordable, professionally-designed website package just for 5-Star Contractors. Created for Certainteed by expert web designers with extensive experience in the building and construction industry, this package offers all you need to create an effective, engaging web presence without breaking the bank or over complicating future maintenance.

WITH YOUR CUSTOM PACKAGE, YOU GET:

- Your choice of template styles in several color combinations
- Your logo and photo choice in a customized header
- Up to eight pages of company information including:
 - Home Page
 - Project Gallery
 - About Us
 - Contact/Request Quote form
 - Services
 - Products
 - Testimonials
 - Resources & Links
- Your copy and photo content
- Help system and introductory training on how to manage and update your new site
- Domain Name (web address)
- Transfer or Acquisition assistance.
- Up to 5 emails set up for you, with access to 15 more accounts you can manage
- Site Control Panel
- Easy web browser-based updating of site. No additional software needed.
- Free web hosting
- Access to additional upgrades and web marketing assistance (additional fees may apply)
