Elevate the design of a traditional suspended ceiling with this versatile collection of lay-in, semi-concealed, and concealed access panel options. Available in a variety of wood veneers and finishes, this collection of panels is offered in multiple configurations, including perforations, slots, and channels.

FEATURES AND BENEFITS
- Choose from a variety of perforation, channel, and slot options for visual appeal and acoustic performance
- Select from a variety of fully-accessible installation options including lay-in, semi-concealed and concealed access
- Design from our veneer and finish library or specify a custom veneer, finish or paint color to match project elements
- Installation components are included when ordered through our Technical Sales Team
- FSC® available upon request

APPLICATIONS
- Conference Rooms
- Private Offices
- Lobbies & Atria
- Hospitality

VENEERS AND FINISHES
Plain Slice Veneers
Natural veneers with distinct grains, cathedral arches, and natural variation in color and texture

Reconstituted Veneers
Veneers engineered for visual and color consistency

Bamboo Veneers
Veneers engineered from rapidly-renewable bamboo

Moving from our veneer and finish library or specify a custom veneer, finish or paint color to match project elements

FEATURES AND BENEFITS
- Choose from a variety of perforation, channel, and slot options for visual appeal and acoustic performance
- Select from a variety of fully-accessible installation options including lay-in, semi-concealed and concealed access
- Design from our veneer and finish library or specify a custom veneer, finish or paint color to match project elements

PHYSICAL DATA

MATERIAL
Fire-retardant MDF or Fire-retardant Particle Board

SURFACE FINISH
Clear or tinted top with 20% sheen

FIRE CLASS (ASTM E1264)
Class A (Composite) per ASTM E84/ULC S102
Flame Spread: 25 or less
Smoke Developed: 50 or less

SITE CONDITIONS
Wood panels must be acclimatized for 72 hours prior to installation. Maintain relative humidity between 25% and 55% and temperature between 50°F and 89°F (10°C and 32°C) for the life of the product.

Wood is a natural material with varying grain and color characteristics. Characteristics may vary from panel to panel.

SEISMIC RESTRAINT
See installation instructions for seismic area installation information.

WARRANTY
Full warranty information can be found at CertainTeed.com/ceilings.
