sustainable insulation.

CertainTeed Sustainable Insulation™ is an easy to install, cost effective solution to help save energy in residential and commercial new construction, as well as for renovating or retrofitting existing buildings. In addition to its thermal properties, this glass fibre building insulation also provides excellent acoustical performance.

NoiseReducer™

The NoiseReducer™ Sound Attenuation Batts are designed for use in residential and commercial wall and ceiling assemblies to effectively reduce unwanted noise. The unique sound-absorbing batts fill the void between interior standard studs, and effectively break the path of sound for added privacy, quiet and peace of mind.

InsulSafe[®] XC

InsulSafe[®] XC is an industry-leading glass fibre blowing wool used in residential and commercial construction as a thermal and acoustical insulation. InsulSafe XC is non-combustible, environmentally friendly and never settles. It is a white glass fibre designed to be used with blowing machines, and very well-suited for CertainTeed Machine Works blowing machines.

MEMBRAIN[™]

Continuous Air Barrier & Smart Vapour Retarder

CertainTeed's MemBrain™ is a patented smart vapour and air barrier film that can provide a continuous air barrier and advanced moisture management in a single product. This innovative polyamide film can change its permeability with ambient humidity conditions and is intended for use with unfaced insulation (glass fibre and mineral wool) in wall and ceiling cavities.
